• Dependable • Durable • Desirable

DP CONTROLS LLP

DP Controls LLP is a Pune based next-generation technology company in the field of Process Automation and HVAC Controls promoted by professionals with more than 30 years of experience.

Quality, Customer Satisfaction, Transparency and Corporate Responsibility form the cornerstone of our approach, which is reflected in every project.

# tyroflo Manual Butterfly Valve

Butterfly valve is a quarter-turn rotational motion valve that is used to stop, regulate and start flow. Butterfly valve has a disc which is mounted on a rotating shaft.

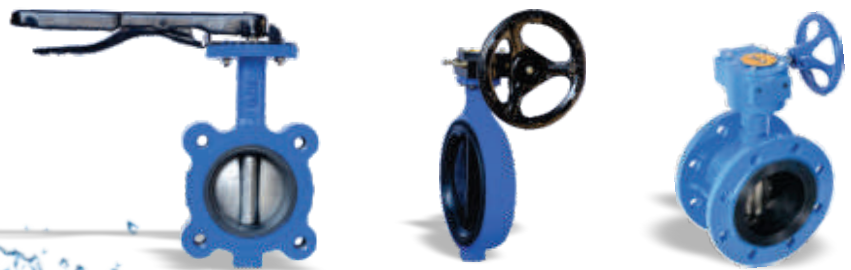

Tyroflo offers wide range of manual butterfly valves in HVAC for heating and cooling applications.

Lug Type

Gear Box Type

Flanged

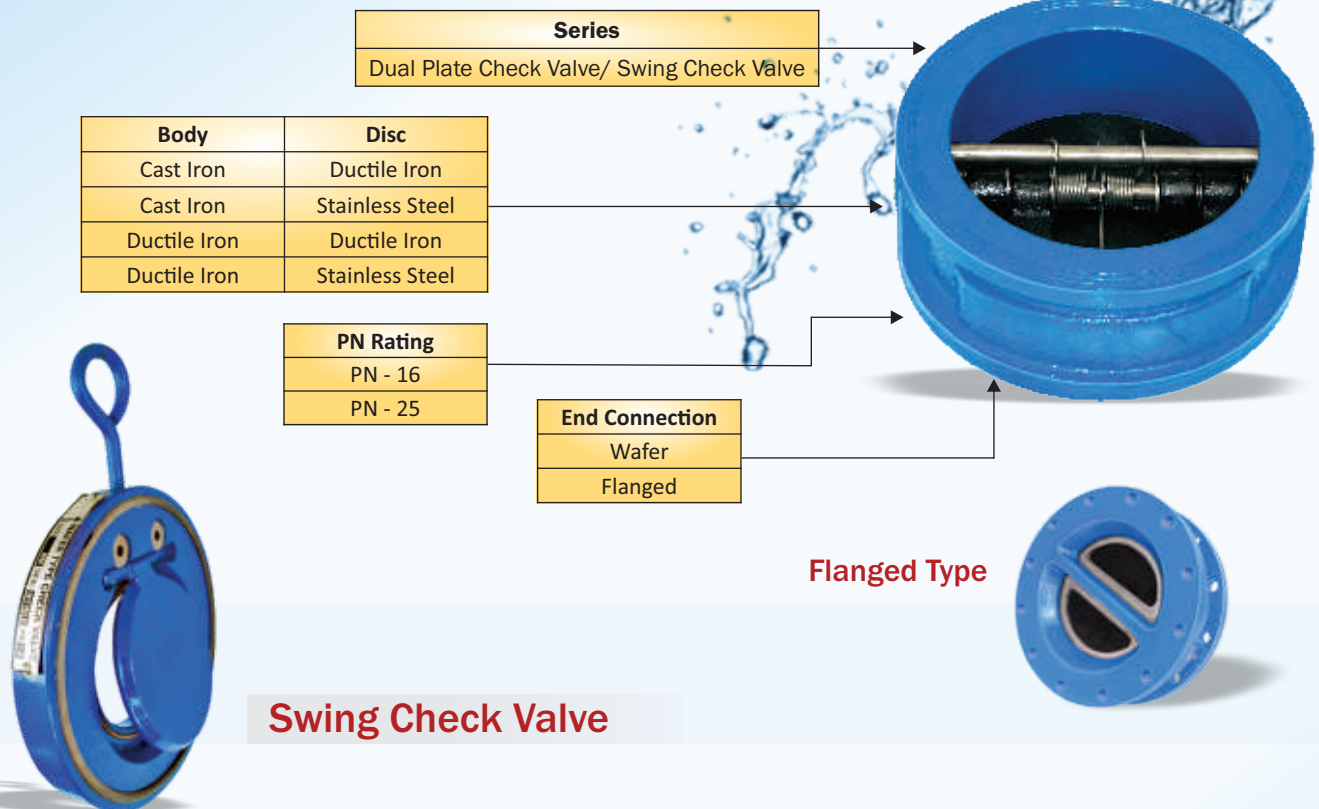

# tyroflo Non-Return Valve

Check valves / Non-Return valves normally allow fluid to flow through one direction. Check valves operate automatically and cannot be controlled externally.

Tyroflo offers wide range of check valves in HVAC for heating and cooling applications.

## Dual Plate Check Valve

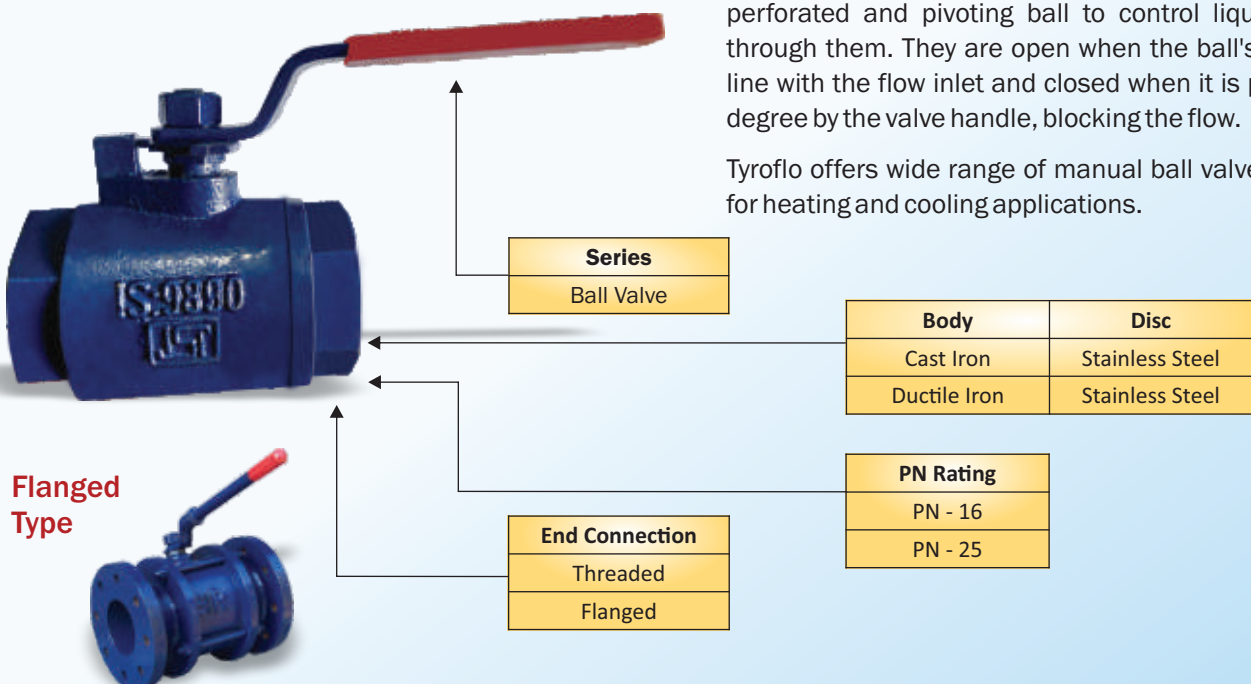

## Swing Check Valve

# tyroflo Manual Ball Valve

Ball valves are flow control devices which use a hollow, perforated and pivoting ball to control liquid flowing through them. They are open when the ball's hole is in line with the flow inlet and closed when it is pivoted 90 degree by the valve handle, blocking the flow.

Tyroflo offers wide range of manual ball valves in HVAC for heating and cooling applications.

## Flanged Type

# tyroflo Strainer

Strainers are devices for mechanically removing unwanted solids from liquid lines by means of a perforated or wire mesh straining element. They are used in pipelines to protect Pumps, Meters, Control Valves, Regulators and other equipments.

Tyroflo offers wide range of strainers in HVAC for heating and cooling applications.

## Y Strainer

Body	Disc
Cast Iron	Stainless Steel
Ductile Iron	Stainless Steel

Series
Y-Strainer

PN Rating
PN - 16
PN - 25

End Connection
Threaded
Flanged

## Pot Strainer

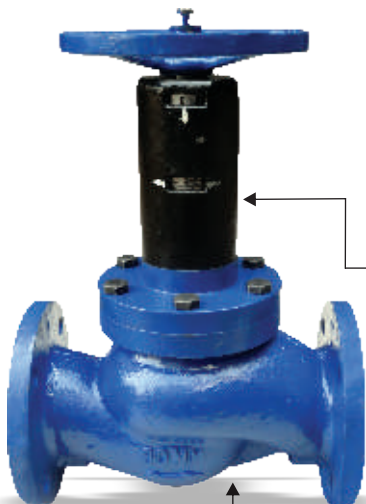

## Threaded Type

# tyroflo Manual Balancing Valve

Balancing valves are utilised in central heating and cooling systems that rely on flow of water through the system. The latest flow technology ensures that the design flow rate is achieved at all times.

Tyroflo offers wide range of manual balancing valves in HVAC for heating and cooling applications.
